MARSHAL XL

COMPOSITE HAZMAT CONTAINERS

PackGen's Marshal XL is one of the largest of our standard UN approved containers from our hazmat line, with a capacity of 3000 lbs, and rated for PG II and PG III materials. The Marshal XL, with its 1.6 cubic yard capacity, is one of the best value containers on the market today.

FEATURES & BENEFITS

-  The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers
-  Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes
-  High strength integrated lift straps
-  Optional lab pack exempt
-  Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components
-  Features a two-flap closure system with ties attached to the container for easy and secure closure

This container has reinforced corner lift straps

PRODUCT SPECS

Packaging Identification Code

13H4

Max Gross

3,000 lbs

Volume/Dimensions

Volume **42 ft³**
