

COMPOSITE HAZMAT CONTAINERS

The PackGen Maverick, purpose-built packaging for PGII & PGIII solids, is at the forefront of PackGen's next generation of pop-up style boxes. Our engineering process combines critical features which optimize stackability and eliminate bulge, while maintaining the lightweight, collapsible attributes which are the hallmarks of PackGen products.

FEATURES & BENEFITS

-  The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers
-  Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes
-  Optional lab pack exempt
-  Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components
-  High strength integrated lift straps
-  Pre-attached cover features a 6 inch overlap to ensure maximum coverage
