

TERRAPAK

COLLAPSIBLE COMPOSITE CONTAINERS

The PackGen TerraPak is our next generation container for highly hazardous chemicals. This container has been specifically designed to carry a large amount of weight, maintain its shape and allow for 2-3 high stacking.

FEATURES & BENEFITS

- Fully integrated liner and container components allow for easy handling with no exposure potential vs. existing bag box applications.
- Minimal space requirement: Reduces freight and warehouse cost up to 90% compared to plywood boxes and metal totes
- Custom sized/high temperature liners allow for worry free transition from existing packaging
- Separate reinforced cover allows for consistent top surface and overlapping closure to ensure entire coverage

PRODUCT SPECS

Packaging Identification Code

11HG2W

Max Gross Mass X

1,360 Kg (3,000 lbs)

Volume/Dimensions

**45 cu ft
44" x 44" x 41"**

Closure/Top Description

Independent Reinforced Cover

Exterior

**UV Treated High Density
Woven Polypropylene**

Structure

**Mult-Layer Composite
Construction**

Liner

**High-Temp/Low-Permeation
Co-extrusion**

Approved IBC Codes

IB6, IB7, IB8

Tare Weight

60 lbs
