

## COMPOSITE HAZMAT CONTAINERS

The PackGen Marshal is an economic solution for packaging PGII & PGIII solids. Like all our collapsible containers, the Marshal's lightweight composite construction means greater stackability without bulge, while its collapsibility saves costs on transportation and storage of empties.

### FEATURES & BENEFITS

-  The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers
-  Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes
-  Optional lab pack exempt
-  Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components
-  High strength integrated lift straps
-  Two flap closure System with ties attached to the container for easy and secure closure

This container has reinforced corner lift straps

Questions about our Marshal Containers? Let the experts at PackGen guide you through the ins and outs of this time saving and cost efficient solid materials transport option.

### PRODUCT SPECS

Packaging Identification Code

**13H4**

Max Gross

**2,500 lbs**

Volume/Dimensions

Volume **27 ft<sup>3</sup>**

Width **36" (914.4 mm)**

Length **36" (914.4 mm)**

Height **36" (914.4 mm)**

Closure/Top Description

**Pre-attached 2-Flap Cover  
Open Top Duffled Liner**

Exterior

**UV Treated High Density  
Woven Polypropylene**

Structure

**Multi-Layer Fiberboard**

Liner

**Low Density Polyethelene**

Pallet Quantity

**25 units**

Tare Weight

**20 lbs**
