

MARSHAL

COMPOSITE HAZMAT CONTAINERS

The PackGen Marshal is an economic solution for packaging PGII & PGIII solids. Like all our collapsible containers, the Marshal's lightweight composite construction means greater stackability without bulge, while its collapsibility saves costs on transportation and storage of empties.

FEATURES & BENEFITS

- The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers
- Optional lab pack exempt
- Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components
- High strength integrated lift straps
- Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes
- Two flap closure System with ties attached to the container for easy and secure closure

This container has reinforced corner lift straps

Questions about our Marshal Containers? Let the experts at PackGen guide you through the ins and outs of this time saving and cost efficient solid materials transport option.

PRODUCT SPECS

Packaging Identification Code

13H4

Max Gross

3000 lbs

Volume/Dimensions

Volume **27 ft³**

Width **36" (914.4 mm)**

Length **36" (914.4 mm)**

Height **36" (914.4 mm)**

Closure/Top Description

**Pre-attached 2-Flap Cover
Open Top Duffled Liner**

Exterior

**UV Treated High Density
Woven Polypropylene**

Structure

Multi-Layer Fiberboard

Liner

Low Density Polyethelene

Pallet Quantity

25 units

Tare Weight

20 lbs
