

COMPOSITE CHEMICAL CONTAINERS

The PackGen Xtractor is our next generation container for highly hazardous solid chemicals. The Xtractor's durable design handles dense/heavy material while maintaining its shape, and allows for stacking up to four high.

FEATURES & BENEFITS

 Fully integrated liner and container components allow for easy handling with no exposure potential vs. existing bag box applications

 Minimal space requirement: Reduces freight and warehouse cost up to 90% compared to plywood boxes and metal totes

 Custom sized/high temperature liners allow for worry free transition from existing packaging

 Separate reinforced cover allows for consistent top surface and overlapping closure to ensure entire coverage

PRODUCT SPECS

Packaging Identification Code

11HG2W

Max Gross Mass

X **1,360 Kg (3,000 lbs)**

Volume/Dimensions

Volume **37 cu ft. (~1.05 m³)**
 Width **41" (1041 mm)**
 Length **41" (1041 mm)**
 Height **38" (965 mm)**

Closure/Top Description

Independent Reinforced Cover

Exterior

UV Treated High Density Woven Polypropylene

Structure

Muilt-Layer Composit Construction

Liner

High-Temp/Low-Permeation Co-extrusion

Approved IBC Codes

IB6, IB7, IB8

Tare Weight

64 lbs

Questions about our Xtractor Chemical Containers? Let the experts at PackGen guide you through the ins and outs of this time saving and cost efficient chemical transport option.
