

PONDEROSA

COMPOSITE HAZMAT CONTAINERS

The PackGen Ponderosa is at the forefront of PackGen's next generation of hazmat style boxes. Our engineering process combines critical features which optimize stackability and eliminate bulge, while maintaining the lightweight, collapsible attributes which are the hallmarks of PackGen packaging.

FEATURES & BENEFITS

The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers

Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes

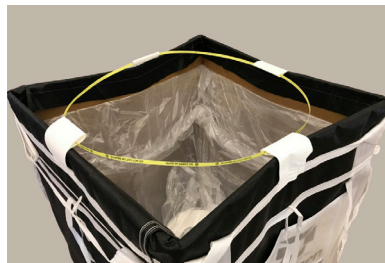

Pre-attached cover features a 6 inch overlap to ensure maximum coverage

Optional lab pack exempt

Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components

High strength integrated lift straps

The SureFit reinforcing truss system eliminates side wall bulge and offers superior stackability

PRODUCT SPECS

Packaging Identification Code

13H4

Max Gross

3,000 lbs

Volume/Dimensions

Volume **42 ft³**

Width **42" (1066.8mm)**

Length **42" (1066.8mm)**

Height **40" (1016mm)**

Closure/Top Description

**Open Top Duffled Liner
Pre-attached Single Piece
Cover**

Exterior

**UV Treated High Density
Woven Polypropylene**

Structure

Multi-Layer Fiberboard

Liner

Low Density Polyethylene

Pallet Quantity

25 units

Tare Weight

31 lbs
